

If not, have you ever thought about trying it?

Why? – because work experience:

- Gives you the chance to get to know a potential employee without having to employ them first
- Costs you nothing except the time and commitment that you are prepared to put into the programme
- Working with young people presents opportunities for staff development
- Students can often provide companies and employees with a new perspective of their work
- Gives young people an invaluable insight into the world of work
- Your company becomes known by teachers, students and parents
- You will help to prepare young people for the local job market

Already take students? Or thinking about it?

Then you may or may not have already been visited by either Michèle Clark (Guernsey Work Experience Manager) or Jackie O'Meara (Guernsey Work Experience Administrator). These visits are part of the Guernsey Work Experience Programme

What happens on these visits?

Firstly Michèle and Jackie contact you to arrange a time and a place suitable for both you and themselves to meet. At this meeting they would discuss full details of the programme and how it could benefit you. Also discussed for example, would be what our work experience students might do if they came out to your company along with any other issues necessary to ensure a useful, interesting and safe environment.

Would you like to take part in our Work Experience Programme?

If you would then give Michèle or Jackie a call on 733043 or email them on gwex@education.gov.gg

We look forward to hearing from you.
